

### The New DM31 Milkshake and Drink Mixer – “Sealed Design” for easier cleaning and better hygiene, versatile beater combination, smaller footprint

The new second generation Roband milkshake mixers DM31 are the ideal machine for making perfect thickshakes or milkshakes every time. The Saturn beater produces extra fluffy shakes using minimal ingredients, time after time. The Universal Beater is stainless steel and has 2 blade options ideal for making normal milkshakes through to thickshakes. Merging style, power and performance these mixers are a must for cafes and fast food outlets.

#### Features

- Powerful two-speed motor, 18,000 RPM on low and 22,000 RPM on high speed.
- Patented magnetic actuator, fully sealed for optimum hygiene.
- High performance stainless steel beater for use with ice cream and milk.
- Saturn beater for extra fluffy shakes.
- Separate internally sealed two-speed on/off rocker switch.
- Available in red, white, black, seaspray and metallic.
- Sturdy weighted base, easy to clean.
- High performance stainless steel mixing spindle.
- Takes standard 710 ml (24 fl.oz.) cups without tilting to remove.
- Includes stainless steel cup.
- Removable easy to clean cup holder.
- ‘Hands free’ operation when the mixing cup is resting on the cup support.
